

Central City Overview

Central City is a medium size city of approximately 100,000 people, located in the approximate center of Columbia County. The City has its own Police, Fire Departments and Public Works Departments. The Police Department has 60 sworn officers, the Fire Department has 6 fire stations and the Public Works department has 80 personnel. It is governed by a City Council of 5 citizens with an appointed Mayor and a City Manager.

The City has an Oil Refinery which has a pier in the Port of Central City. The refinery has its own Security and Fire Departments, although they operate very closely with the city departments. The refinery Fire Department has 10 full time personnel on duty at any one time and another 30 personnel that have other jobs but respond to emergencies. The Refinery Security department has 15 personnel per shift working in three shifts around the clock

The port is protected by the Central City Police Department, the Refinery Security Department and Coast Guard Station Central City. The Coast Guard station has two medium sized cutters, two small cutters and three rigid hull inflatable's. All their vessels have fire firefighting and law enforcement capabilities. The Coast Guard Station has 40 personnel. The Coast Guard Station Commander is also the Captain of the Port, allowing that position to control access in and out of the port. There are no air assets at this station, they fly in from 50 miles away as needed.

In addition the City hosts a railroad yard with two main lines coming into the City. The railroad the CC&BF has a small office in the switching yard, but no major presence in the town. The rail-yard typically has between 1000 and 2000 cars stored, some have hazardous materials. Railroad Police have a small office in the yard with 3 Officers based there.

There is an airport that supports Business Jet aircraft, there is no airline services at this airport. The Airport uses Central City Police for security and Central City Fire to operate the lone Aircraft Crash rescue Unit, from the station on the airport. The Crash rescue is cross staffed by the lone crew in the station.

Columbia County provides Law Enforcement in the unincorporated area using the Sheriff's Department, this is an organization of 600 people. Their responsibilities include the Jail, Coroner, Crime Lab and Patrol. There are usually 22 patrol personnel on duty at most times. The other divisions can improve that number by another 20 during weekdays. Columbia County Fire Department is an 18 station agency with some urban, but primarily rural firefighting capabilities. They have approximately 60 people on duty at any one time, but most personnel live fairly nearby and can be recalled as needed.

The state has a Patrol Station in Columbia County and uses a shift of 8 officers and sergeants to patrol the county on most shifts.

The State Fire Department (SFD) has one station in Columbia County, with two engines and six personnel on duty, but it is part of a much larger organization and can call up significant resources, with some delay.

The State has an office building in Central City that houses the regional office for DNR and DOT. DNR typically has 12 field personnel working on a weekday. All State responder personnel are available for callback with some delay at nights and on weekends.

DOT has 5 management personnel in the office and a Corporation yard with 10 dump-trucks, 2 Bulldozers, 2 front end loaders, and a myriad of other specialized equipment. Some of this equipment is available 24x7, the bulk of it is not staffed at night or on weekends, but is available for callout with some delay. Public work total staff excluding management is 35.

Surrounding Central City, are three smaller communities West City, East City and North City. In addition The State provides Law enforcement support. All the Cities train together routinely and use NIMS as standard operating procedure.

The City of West is approximately 25,000 people and has a Police Department consisting of 30 officers. The Fire Department has 3 stations and 12 personnel on duty at any one time. Public works has 20 personnel, but no staff at night or on weekends, all can be recalled as needed.

East City has approximately 10,000 people. The Police Department has 13 Officers. Their Fire Department has two stations and 8 personnel on duty. The city has a DPW with 5 personnel during the day. At night and on weekends they contract with Central City DPW for immediate response and recall personnel as available.

North City has a population of 20,000 people, the Police Department has 23 Officers. The Fire Department has 3 stations and 10 personnel on duty at any one time. Public Works has approximately 10 people working on weekdays, no personnel at night or on weekends, although there is a designated callout team of 4 personnel at all off duty times.

Columbia County Ambulance is a private company with 12 ambulances, 5 are paramedic (ALS) with the remainder EMT (BLS). On any given shift the 5 ALS and 2 BLS are staffed with two personnel each. In addition 1 shift supervisor is working at all times.

RADIO SYSTEMS

The City of Central City

Central City operates an 8 channel P25 Trunked Radio System. This system supports all City agencies. System coverage includes the City and approximately 3 miles surrounding the boundaries.

In this region there are strong Mutual Aid agreements in place with the, Law, Fire and Public Works, so all jurisdictions surrounding the city work well together.

The following Talkgroups and channels are available in their portable and mobile radios:

TALKGROUP NAME				
CCPD DISP	CCFIRE DISP	CCPW DISP	CCMUNI GOV

County Public Works uses a 2 channel conventional VHF system, both channels have countywide coverage. The Public works radios also have the VHF Interoperable channels. The two channels are:

NAME	RECEIVE	RX CTCSS	TRANSMIT	TX CTCSS
CPW1	153.2275 N	136.5	155.2500 N	136.5
CPW1	155.6525 N	136.5	154.9950 N	136.5

The State has an Analog, proprietary ACME Trunked Radio System. In this county they have 1 cell with 5 channels available, there is some overlap form adjacent counties. The in-county cell covers 100% of the county with mobile coverage and most of the county on portable. All State Law and Fire radios have all the Talkgroups,

The DOT and DNR radios only have the Interoperability and DOT Talkgroups. Their Talkgroups/channels are:

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

The convention calls for frequency lists to show four digits after the decimal place, followed by either an “N” or a “W”, depending on whether the frequency is narrow or wide band. Mode refers to either “A” or “D” indicating analog or digital (e.g. Project 25) or “M” indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Urban Train Derailment Narrative

In the early morning today a Central and Columbia (C&C) freight train derailed and rolled down an embankment along the Roaring River. Parts of the front of the train lay on its side in the river and along the steeply sloping river bank. The area along the river bank is part of the Central City Riverfront Park. The train consisted of 4 diesel locomotives, 23 tank cars (pressurized and non-pressurized), 12 hopper cars, and 2 cryogenic liquid tank cars containing liquid oxygen (LOX). Initial assessment indicates that several of the pressurized tank cars containing chlorine and anhydrous ammonia have ruptured. Two of the LPG tank cars exploded on impact during the derailment, causing a fire. The hopper cars containing ammonium nitrate lie on their sides, and the contents have spilled onto the banks of the river. The locomotive diesel tanks have ruptured, spilling diesel into the river. The cryogenic tank cars appear to be intact; however, several of the non-pressurized tank cars have released an unknown quantity of crude sulfate turpentine into the river.

The Engineer driving the train managed to get to the river bank and is being treated at Central Hospital for serious injuries sustained in the derailment. Central City Police Department cars are on both sides of the river at the derailment. Their police radio picks up a report of a chlorine gas cloud forming immediately downstream from the leaking rail cars. This report was picked up by several citizens who contacted the local news stations in Central City. Reporters from the major local TV, radio, and newspaper news bureaus are on the way to the incident. One of the TV news crews is already shooting pictures. The local TV reporter is asking to do an interview for their evening news, and other reporters are lining up for interviews as well.

There is uncertainty about whom or which agency is in charge of the incident. There is a pervasive rumor that the train Engineer's license to operate the engine had expired, but that is being checked out. The neighborhoods immediately adjacent to the spill on both sides of the river are being evacuated due to the danger posed by the chlorine gas. The area about 200 yards from the derailment has been cordoned off. Hazmat crews and rail crews are busy containing the spill and bringing in equipment to remove the derailed cars. The mayor has issued an evacuation order for residents in the surrounding area, and is requesting assistance from the state. The Red Cross is establishing an evacuation center at North High Schools in Central City.

There are rumors that hundreds of Coho salmon, a federally listed threatened species have been killed in the river. The Parks Department, County, and State Dept of Natural Resources have issued an advisory and closed the river to fishing, recreation and other uses for 25 miles down river from the rail bridge site.

The Emergency Medical Agency (EMA) in Liberty County is reporting numerous incidents of burning eyes and lungs. The Central City hospital has exceeded its capability to staff the emergency room. There are numerous water intakes along this stretch of the Roaring River.

Liberty County in the state of Columbia, is the largest county in the State in terms of population, and includes Central City, the largest and densest population center in the State of Columbia. The population of Central City is approximately 149,000 and the metropolitan area population is approximately 302,412. Central City serves as a major transportation hub within the state: commercial river traffic, rail, air, and interstate traffic and is 40 miles from the Port of Charlotte, on the Big Ocean.

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: Date From: _____ Date To: _____ Time From: _____ Time To: _____

ST. DOROTHY'S	15487 MAIN ST., MONROE		25	90	<input type="checkbox"/> Yes Level: _____	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
6. Special Medical Emergency Procedures:							
<p>DIVS/Group Supervisor will take charge of a Medical Emergency, notify Central City Train Communications on COMMAND. Communications will clear all radio traffic, except for the emergency. The closest line EMT or Line Paramedic will respond to the incident for triage and treatment. The DIVS/Group Supervisor will give Communications the following information: Type of injury, mechanism, type of transport needed, and location. Gross Decon will be performed on all patients prior to transport.</p> <p><input type="checkbox"/> Check box if aviation assets are utilized for rescue. If assets are used, coordinate with Air Operations.</p>
