

Final Exercise—Student Guide

Purpose

The purpose of this exercise is for students to synthesize and apply all of the information they have learned in the course in a hands-on setting.

Objectives

Students will:

- Complete the tasks of a COML on an incident from initial arrival through demobilization.

Exercise Structure

This exercise uses a new incident scenario, a tornado that hits Central City. Based on this information, you will discuss the significance of the information received and what conclusions to draw as they utilize appropriate forms to request resources, document Communications Unit activities. You will develop a Communications plan for the 2nd operational period, to support at least one Command channel and tactical talkgroups supporting Fire, Law, EMS and other responders that you would expect with this magnitude of an event. You will also evaluate staff and prepare for demobilization. The exercise is scheduled to last approximately 1 1/2 hours, including 1 hour of hands-on practice and 1/2 hour of guided debrief.

You should have the following materials:

- LSC Briefing / Incident Overview
- Map of Central City
- Plot plans of Nick Dunn HS and Emily Paige Community Center
- ICS Form 213s, three for each group
- ICS Form 214s, one per student
- ICS Form 217A, use the completed Central City one used throughout the course
- ICS Form 205, one per student
- ICS Form 225, one per student
- Blank easel chart paper as appropriate
- Assortment of colored markers
- T-cards: 25 equipment and 10 overhead per group

Rules, Roles, and Responsibilities

Participants will work in groups, led by the instructor. Following are the specific activities / instructions for your participation in the exercise:

1. Review the information provided.

2. Complete ICS Forms 213, 214, 205, 225 and develop a demobilization plan based on the Central City, Tornado scenario and updated information.
3. Make corrections according to the Instructor's feedback.

Instructors moderate discussions, answer questions and provide additional information as required.

Final Exercise Schedule

Activity	Duration	Participation Type
Exercise Introduction	5 minutes	Classroom
Review of Incident Overview	10 minutes	Individually
Complete ICS Form 213	10 minutes	Individually
Complete ICS Form 205	15 minutes	Small Group
Complete ICS Form 225	5 minutes	Individually
Develop Demobilization Plan	10 minutes	Small Group
Complete ICS Form 214	5 minutes	Individually
Review with Instructor	30 minutes	Classroom

Incident Overview

- At approximately 1400 hours on April 26, 201X an F-3 Tornado touched down in Central City. The path of destruction began in the area of 9th Ave paralleling Hwy 79 and continued northeast across the center of town through the downtown area of the city and into the rural area before dissipating.
- The current time is 1900 on April 26, 201X.
- There several incidents involving fires and gas leaks throughout the tornado's path.
- The fire water mains have been disrupted by numerous water breaks and a loss of pumping capacity due to city-wide power outage.
- There are significant hazardous materials involved.
- More than 10,000 people are directly affected by blown out windows, and power outages.
- The local Emergency Management Agency in Central City, is reporting overwhelming severe damage to homes and businesses. The local hospitals are exceeding their capacity. City services have been rendered non-operational, there is a water contamination advisory, and power is out for most of the city.
- There are additional reports of tornadoes that have touched down 45 miles farther to the east. The rain has continued to fall causing flooding throughout the region surrounding Central City. The rainfall has reached an alarming amount and the local rivers and streams have become swollen; the rainfall has caused a serious impact and is expected to continue through the week.

Specific Information:

- Students should assume they are planning for the second operational period, as the COML.
- On site they have a COMT, INCM, a THSP for data systems and a THSP for telephone.
- The city ordered a gateway and satellite trailer during the first operational period and they are at the COML's disposal.
- The City of Central City is paralyzed, particularly because the master site for their trunking system was heavily damaged by the explosion. There are two remaining sites operational in site trunking mode, but with much more limited capacity and reduced coverage is affecting the operations at the rail yard and immediately adjacent areas.
- Participants should keep in mind this is likely to be a long event and day-to-day operations need to continue in Central City. Using the 217A develop a 205 to support at least one Command channel and tactical talk groups supporting Fire, Law, EMS and other responders that you would expect with this magnitude of an event, including NTSB, Railroad, Haz Mat teams from several agencies, Red Cross for temporary housing, EPA, FBI, etc.
- The Nick Dunn High School at W. 13th Ave and S. Redbud St in Central City, are being made available for communications use, but no facilities have been established. The school population is 600 students when in session. It has a combination of fixed facilities including a pool, stadium-type football field, several softball/baseball fields, soccer field, and bus repair facilities. There is

an adjacent open field, which is owned by a private property owner having approximately 55 acres of flat land.

- The Emily Paige Community Center has also been made available. It has a gym with 200 person bleachers, bathroom facilities, a pool, 3 meeting rooms with 50-, 70-, and 100-person capacities respectively, a kitchen service buffet line, and a 300-person auditorium. The community center is located at 1105 S. Walnut St. between W. 3rd Ave and W. 4th Ave in Central City.
- The Central City EOC is not functional, but the Columbia County EOC is open and operational.
- The Central City Memorial Hospital is a 200-bed facility and is at maximum capacity from normal operations prior to the incident and with self presenters.
- All city departments are actively operating and attempting to secure the city services and get a status report on the effects and impact of the destruction.

Weather:

- Due to a tropical depression gaining strength in the Gulf, there are thunderstorm watches in effect for the Central City area and surrounding counties. (See extended weather forecast.)

Unwilling to delegate authority to increase efficiency of task accomplishment.	<input type="checkbox"/>	A leader who earned others' support and commitment. Set high work standards; clearly articulated job requirements, expectations, and measurement criteria; held subordinates accountable. When appropriate, delegated authority to those directly responsible for the task.	<input type="checkbox"/>	An inspirational leader who motivated others to achieve results not normally attainable. Won people over rather than imposing will. Clearly articulated vision; empowered subordinates to set goals and objectives to accomplish tasks. Modified leadership style to best meet challenging situations.
20. Judgment/Decisions Under Stress: Ability to make sound decisions and provide valid recommendations by using facts, experience, political acumen, common sense, risk assessment, and analytical thought.	<input type="checkbox"/>	Decisions often displayed poor analysis. Failed to make necessary decisions, or jumped to conclusions without considering facts, alternatives, and impact. Did not effectively weigh risk, cost, and time considerations. Unconcerned with political drivers on organization.	<input type="checkbox"/>	Demonstrated analytical thought and common sense in making decisions. Used facts, data, and experience, and considered the impact of alternatives and political realities. Weighed risk, cost, and time considerations. Made sound decisions promptly with the best available information.	<input type="checkbox"/>	Combined keen analytical thought, an understanding of political processes, and insight to make appropriate decisions. Focused on the key issues and the most relevant information. Did the right thing at the right time. Actions indicated awareness of impact of decisions on others. Not afraid to take reasonable risks to achieve positive results.
21. Initiative Ability to originate and act on new ideas, pursue opportunities to learn and develop, and seek responsibility without guidance and supervision.	<input type="checkbox"/>	Postponed needed action. Implemented or supported improvements only when directed to do so. Showed little interest in career development. Feasible improvements in methods, services, or products went unexplored.	<input type="checkbox"/>	Championed improvement through new ideas, methods, and practices. Anticipated problems and took prompt action to avoid or resolve them. Pursued productivity gains and enhanced mission performance by applying new ideas and methods.	<input type="checkbox"/>	Aggressively sought out additional responsibility. A self-learner. Made worthwhile ideas and practices work when others might have given up. Extremely innovative. Optimized use of new ideas and methods to improve work processes and decisionmaking.
22. Physical Ability for the Job: Ability to invest in the IMT's future by caring for the physical health and emotional well-being of self and others.	<input type="checkbox"/>	Failed to meet minimum standards of sobriety. Tolerated or condoned others' alcohol abuse. Seldom considered subordinates' health and well-being. Unwilling or unable to recognize and manage stress despite apparent need.	<input type="checkbox"/>	Committed to health and well-being of self and subordinates. Enhanced personal performance through activities supporting physical and emotional well-being. Recognized and managed stress effectively.	<input type="checkbox"/>	Remarkable vitality, enthusiasm, alertness, and energy. Consistently contributed at high levels of activity. Optimized personal performance through involvement in activities that supported physical and emotional well-being. Monitored and helped others deal with stress and enhance health and well-being.
23. Adherence to Safety: Ability to invest in the IMT's future by caring for the safety of self and others.	<input type="checkbox"/>	Failed to adequately identify and protect personnel from safety hazards.	<input type="checkbox"/>	Ensured that safe operating procedures were followed.	<input type="checkbox"/>	Demonstrated a significant commitment toward safety of personnel.
